📍 Dhaka, Bangladesh

I am a software engineer with a passion for problem-solving and a relentless curiosity for learning. Through hard work, dedication, and unwavering persistence, I am committed to discovering effective solutions to intricate challenges. My ultimate goal is to achieve continuous personal and professional growth by pursuing a fulfilling and demanding career in software development.

## EXPERIENCE

May 2024 Present	<b>Software Engineer, Frontend , UJET.CX , San Francisco, California, United States - Remote</b> <ul style="list-style-type: none"><li>› Developing and implementing new user-facing features using AngularJS.</li><li>› Writing unit tests to ensure code reliability and maintainability.</li><li>› Building reusable code and libraries for future use.</li><li>› Participating in code reviews and ensuring code quality and standards are maintained.</li><li>› Troubleshooting and debugging issues in production environments.</li><li>› Collaborating with back-end developers and other stakeholders to integrate front-end and back-end functionalities.</li><li>› Staying up-to-date with emerging front-end technologies and best practices.</li></ul> <div>JavaScriptVue.jsAngularJSLitJestCode Review</div>
June 2022 May 2024	<b>Software Engineer, Team Lead , SELISE DIGITAL PLATFORMS, Bangladesh</b> <ul style="list-style-type: none"><li>› Developing and implementing new user-facing features using Angular.</li><li>› Building reusable code and libraries for future use.</li><li>› Participating in code reviews and ensuring code quality and standards are maintained.</li><li>› Troubleshooting and debugging issues in production environments.</li><li>› Collaborating with back-end developers and other stakeholders to integrate front-end and back-end functionalities.</li><li>› Staying up-to-date with emerging front-end technologies and best practices.</li><li>› Mentoring junior team members and contributing to the growth and development of the team.</li><li>› Leading a team of engineers, and QA, coordinating tasks, and ensuring timely delivery of projects.</li><li>› Establishing and enforcing clean code principles and guidelines to maintain code quality and consistency across the team.</li></ul> <div>TypeScriptAngularReactNext.jsAngular MaterialGraphQLApollo ClientERPCode ReviewLead Team</div>
October 2020 June 2022	<b>Assistant Software Engineer , ESECURESOFT TECHNOLOGIES LTD, Bangladesh</b> <ul style="list-style-type: none"><li>› Analyzed user requirements and convert requirements to design documents.</li><li>› Created clean, responsive and dynamic code with cross-browser compatibility.</li><li>› Translation of design to code.</li><li>› Integration of APIs to populate front-end components.</li></ul> <div>JavaScriptReactReduxMaterial-UIAngularAngular MaterialPythonDjangoDjango REST Framework</div>
August 2020 October 2020	<b>Software Developer Intern, FLYTE SOLUTIONS, Bangladesh</b> <ul style="list-style-type: none"><li>› Designed, built and determined the structure of web pages. Ensured web design was optimized for all devices.</li></ul> <div>HTMLCSSBootstrapReactReact-BootstrapNode.js</div>

## SKILLS

Programming Languages	JavaScript, TypeScript, and Python
Web Development	HTML, CSS, Sass, Tailwind CSS, Next.js, React, Material-UI, Angular, AngularJS, Vue.js, Lit, Jest, Angular Material, NodeJS, Redux, Django, Django REST Framework, and RESTful API
Database	SQL, PostgreSQL , MySQL, and MongoDB
Version Control	Git, GitHub, and GitLab
Development Tools/ IDE/ Editor	JBeans, Visual Studio Code, pgAdmin
Languages	English, Bengali

## PROJECTS

### GLOBAL BRAND ESHOP

2021 - 2022

 [Live link](#)

A comprehensive e-commerce solution comprises a dynamic admin panel for streamlined store management and an interactive client-side interface that empowers consumers to explore, compare, and place orders. Essential components include user authentication, secure payment processing, an intuitive product catalog, efficient order placement, and inventory management. Additionally, robust search and filtering capabilities enhance user experience, while responsive design ensures accessibility across various devices. This holistic approach to e-commerce ensures a user-friendly platform that both customers and administrators can rely on.

Angular Angular Material Django PostgreSQL

### RECRUITING WOMEN & MOMS

2022 - 2023

 [Live link \(Private\)](#)

Recruiting Women & Moms is a job-matching platform that connects recruiters with women and moms looking for employment opportunities. The platform is built using Angular and has three key roles : recruiter, candidate (job seeker), and admin. Recruiters can post job listings and search for potential candidates based on their skills and experience. Candidates can create a profile, search for job listings, and apply for positions that match their qualifications. The admin role oversees the platform's overall operations and manages user accounts. The goal of this platform is to provide a more targeted and streamlined job search process for women and moms, while also helping recruiters find qualified candidates for their job openings.

Angular Angular Material .NET Core MongoDB

### ESL ERP

2021 - 2022

 [Office Project \(Private\)](#)

Express Systems Limited (ESL) is the largest Information Technology Company in Bangladesh. We're building an enterprise resource planning (ERP) for ESL. In this ERP we cover all main modules like Configuration, Supply Chain, Accounting, Finance, Project Management, CRM, HRM, and Asset management.

HTML CSS Bootstrap JavaScript jQuery Django PostgreSQL

### SECURE SOCIETY

2020 - 2021

 [Office Project \(Private\)](#)

A common system that covers all necessary scenarios for any kind of association / group with various events controlled by modules. This is a management system that will carry out and maintain tasks and services based on suitable needs.

React Redux Material-UI Django PostgreSQL

### HOP N SHOP

2020 - 2021

 [Office Project \(Private\)](#)

A multi-vendor e-commerce site where consumers are able to place orders by comparing prices/offers of different shops/ vendors based on location.

Angular Angular Material Django PostgreSQL

## EDUCATION

2020	<b>Bachelor of Science in Computer Science, BANGLADESH UNIVERSITY OF BUSINESS AND TECHNOLOGY(BUBT), Bangladesh</b> <ul style="list-style-type: none"><li>&gt; CGPA : 3.84/4.0</li><li>&gt; Notable Courses : Artificial Intelligence, Machine Learning, Software Engineering, Object Oriented Programming, Data Structure, and Algorithms</li></ul>
2014	<b>Intermediate of science , GOVERNMENT K.M.H DEGREE COLLEGE, Bangladesh</b> <ul style="list-style-type: none"><li>&gt; Notable Courses : Physics, Chemistry, Biology, and Mathematics</li></ul>
